Work Experience

Next Level Marketing

Finance Assistant

10/2015 – 01/2017 | Westport, CT

- Analyzed and translated large amounts of data into weekly expense reports for market managers
- Eliminated human error by automating pay roll with nested IF statements, VLOOKUP, and other excel functions
- Trained on-boarding ambassadors
- Managed pay roll preparation and invoicing

Unitek Global Services

Cable Technician

03/2012 – 01/2015 | Prospect, CT

- Analyzed signal strength from utility pole and a home's ground block to ensure company standards
- Utilized power, coaxial tools, and cable meter tools for the installation of high speed internet, (VOIP) Voice over IP, and cable TV
- Educated customers on the operation of devices and clarified on services offered and installed
- Established trusting relationships with customers to ensure longevity

Coating Design Group, Inc.

Quality Control Inspector

07/2006 – 02/2012 | Milford, CT

- Supervised and translated for six quality control inspectors to ensure clear communication between employees and staff members
- Performed detailed inspections on high quality items (i.e. Boeing Jet Windows)

Education

Dev Bootcamp

02/2017 – 07/2017 | Manhattan, NY

- Full-Stack Development Program focusing on Ruby, JavaScript, HTML, CSS, SQL, and Rails framework

University of Bridgeport

08/2014 – 05/2016 | Bridgeport, CT

SQL

Personal Projects

Budget Guru

07/2017 – 07/2017

Budget Guru is a financial app built for Dev Bootcamps final project. My team and I decided to challenge ourselves by learning and implementing React Native in 7 days. We used Ruby on Rails for the back end. A demo video can be found on the github.io link listed above.
